FFmpeg

<https://ffmpeg.org>

FFmpeg is a free and open-source software project consisting of a suite of libraries and programs for handling video, audio, and other multimedia files and streams. It is widely used for format transcoding, basic editing, and standards compliance.

FFmpeg and how to use it wrong

<https://videoblog.wordpress.com/2017/11/10/ffmpeg-and-how-to-use-it-wrong/>

I've been in the streaming media industry since 2008 and have seen a lot of misinformation regarding both FFmpeg and libx264.

Intro & Learning

FFmpeg Android Java

<https://github.com/WritingMinds/ffmpeg-android-java>

Android java library for FFmpeg binary compiled using <https://github.com/writingminds/ffmpeg-android>

Encoding & Codecs

FFmpeg AutoGen (C#)

<https://github.com/Ruslan-B/FFmpeg.AutoGen>

A set of auto-generated P/Invoke bindings for FFmpeg libraries. FFmpeg.AutoGen allows .NET developers to directly use FFmpeg's C API in C# for advanced media processing tasks.

Encoding & Codecs

FFmpeg Avplayer For iOS tvOS

<https://github.com/imoreapps/ffmpeg-avplayer-for-ios-tvos>

A tiny but powerful iOS and Apple TV OS av player framework that's based on the FFmpeg library.

Players & Clients

FFmpeg AWS Lambda Layer

<https://github.com/serverlesspub/ffmpeg-aws-lambda-layer>

FFmpeg/FFprobe AWS Lambda layer.

Encoding & Codecs

FFmpeg Batch Converter (Windows)

<https://ffmpeg-batch.sourceforge.io/>

A Windows front-end that allows batch processing with FFmpeg. Users can queue up multiple files with presets for conversion or processing, automating repetitive FFmpeg tasks without writing a script.

Encoding & Codecs

FFmpeg Bitrate Stats

<https://github.com/slhck/ffmpeg-bitrate-stats>

Calculate bitrate statistics using FFmpeg

Encoding & Codecs

FFmpeg Build Script

<https://github.com/markus-perl/ffmpeg-build-script>

The FFmpeg build script provides an easy way to build a static FFmpeg on OSX and Linux with non-free codecs included.

Encoding & Codecs

FFmpeg CLI Wrapper

<https://github.com/bramp/ffmpeg-cli-wrapper>

Java wrapper around the FFmpeg command line tool.

FFmpeg Debug Qp

<https://github.com/slhck/ffmpeg-debug-qp>

FFmpeg Debug Script for QP Values

Encoding & Codecs

FFmpeg Decklink HDR Metadata Support

<https://lists.ffmpeg.org/pipermail/ffmpeg-devel/2023-July/312425.html>

A patch for FFmpeg's Decklink output module that adds support for HDR metadata. This enhancement allows for the output of HDR content with proper metadata, ensuring accurate color representation and compliance with HDR standards.

Standards & Industry

FFmpeg Docker Container

<https://github.com/tamara-schmitz/ffmpeg-docker-container>

This project provides a Docker container for FFmpeg, facilitating the use of FFmpeg in isolated environments. It simplifies the deployment and execution of FFmpeg commands, ensuring consistency across different systems and easing the setup process for developers.

Encoding & Codecs

FFmpeg Docker Images (jrottenberg)

<https://github.com/jrottenberg/ffmpeg>

Docker build for FFmpeg on Ubuntu / Alpine / CentOS 7 / Scratch

FFmpeg Encoding Course

<https://github.com/slhck/ffmpeg-encoding-course>

An introduction to FFmpeg and its tools.

Intro & Learning

FFmpeg General Documentation

<https://ffmpeg.org/general.html>

The General Documentation for FFmpeg offers comprehensive guidance on various aspects of FFmpeg, including compilation guides, encoding instructions, hardware acceleration, streaming, filtering, and more. It serves as a crucial resource for developers aiming to leverage FFmpeg's full potential in their projects.

General Tools

FFmpeg iOS

<https://sourceforge.net/projects/ffmpeg-ios/>

FFmpeg iOS provides precompiled FFmpeg libraries tailored for iOS development. These libraries enable developers to incorporate robust video processing capabilities into iOS applications, supporting a wide range of codecs and formats essential for video streaming and encoding tasks.

Encoding & Codecs

FFmpeg iOS Build Script

<https://github.com/kewlbear/FFmpeg-iOS-build-script>

Shell scripts to build FFmpeg for iOS and tvOS.

Encoding & Codecs

FFmpeg JS

<https://github.com/Kagami/ffmpeg.js>

Port of FFmpeg with Emscripten.
